

Mastering Bash

Tricks and Gatcha for Bash scripting

Karol Gąsior

April 13, 2026

Abstract

This document contains noticed tricks and traps in bash scripting

Contents

1	Introduction to Looping in Bash	3
----------	--	----------

1 Introduction to Looping in Bash

- Copying a whole folder content

```
1 cp "${source}"/{,.*} "${destination}"
```

Listing 1: Copying a whole directory content with hidden files

- Try to process data in bulk using a single `awk` script rather than a shell loop if the dataset is huge.
